 - a. Is the safe-deposit box
-

After watching

1. What would you have done differently? I think I planned best the plan of the robbery because the man don't check about the office have cameras or other security

2. What do you think will happen in the morning? I feel the other people found the paper with the black hole and in the best of the cases the man go out of the black hole and go to the prison.
3. What would you do if you could put your arm through a wall or other solid surface? Can you think of any (other) possible uses of this power? In the medicine I think this power is good to do surgeries without having to open up the patient
